

# LabAutomation 2010

Where Science, Technology and Industry Come Together

## Submit to Win!

- \$10,000 ALA Innovation Award
- Trip to Beijing, China to present at AICHEMAsia 2010; up to 10 speakers

## The Bottom Line

In this economy, travel and training budgets are carefully scrutinized, and opportunities are weighed in terms of which can generate the greatest return on investment.

Each year, the LabAutomation conference and exhibition brings together more than 250 multi-national companies with approximately 4,000 researchers and professionals from more than 40 countries to one premier event in Palm Springs, CA, USA. Now is the time to begin making conference plans for LabAutomation2010—the best way to consolidate, concentrate and meet your educational and business objectives.

## A Diversity of Industries Including:

- Drug Discovery and Development
- Forensics and Security
- Energy Generation and Petrochemicals
- Agriculture and Food
- Clinical Diagnostics

## LabAutomation2010 Key Education Tracks:

- Detection and Separation
- Micro- and Nanotechnologies
- High-Throughput Technologies
- Informatics
- Evolving Applications of Laboratory Automation, *featuring Agriculture and Food*

## Premier Sponsor:

**Agilent Technologies**
