**Win a \$500 Amazon Gift Card
Enter the 2016 JALA & JBS Art of Science Contest**

CHICAGO – The Society for Laboratory Automation and Screening (SLAS) is now accepting entries for the 2016 JALA & JBS Art of Science Contest. One grand prize winner will receive a \$500 Amazon gift card and up to 10 finalists will receive 60 days free online access to the SAGE Pharmacology & Biomedical Collection (100,000+ research reports!).

Enter before January 4, 2016 – E-mail a high resolution jpg file (300+ dpi/10MB maximum size) of your favorite cell structures, assay results or other lab creations to nhallock@slas.org. Include your first and last name in the title of the jpg file AND include your name, contact information and a brief description of your image in your message. Limit two entries per person.

SLAS publishes two rigorously peer-reviewed, MEDLINE-indexed scientific journals – the *Journal of Biomolecular Screening* (JBS) and the *Journal of Laboratory Automation* (JALA). Both journals recognize that visualization plays an important role in the analysis and presentation of scientific work. In journal articles, images often communicate ideas and information in ways that text, tables, charts, graphs or equations cannot. Sometimes scientific images surpass this purpose and create shapes, patterns and designs that capture attention and imagination. These are the images celebrated through the annual JALA and JBS Art of Science Contest.

For more information about SLAS, its journals and the 2016 JALA & JBS Art of Science Contest, visit www.slas.org/jala-jbs.

* * * * *

The Society for Laboratory Automation and Screening (SLAS) is an international community of more than 15,000 individual scientists, engineers, researchers, technologists and others from academic, government and industry laboratories. The SLAS mission is to be the preeminent global organization providing forums for education and information exchange and to encourage the study of, and improve the practice of life sciences R&D. For more information, visit www.SLAS.org.

SLAS publishes two internationally recognized, MEDLINE-indexed journals, now in their 20th year of publication. ***The Journal of Laboratory Automation (JALA)*** and ***Journal of Biomolecular Screening (JBS)*** uniquely serve

professionals who work primarily in life sciences R&D. Together, JALA and JBS address the full spectrum of issues that are mission-critical to this important audience, enabling scientific research teams to gain scientific insights, increase productivity, elevate data quality, reduce process cycle times and enable experimentation that otherwise would be impossible.

Specifically, **JALA** explores ways in which scientists adapt advancements in technology for scientific exploration and experimentation. In direct relation to this, **JBS** reports how scientists develop and utilize novel technologies and/or approaches to provide and characterize chemical and biological tools to understand and treat human disease.

Journal of Biomolecular Screening (JBS): 2013 Impact Factor 2.423. Editor-in-Chief Robert M. Campbell, Ph.D., Eli Lilly and Company, Indianapolis, IN (USA).

Journal of Laboratory Automation (JALA): 2013 Impact Factor 1.879. Editor-in-Chief Edward Kai-Hua Chow, Ph.D., National University of Singapore (Singapore).
