

A newsletter to support SLAS students and their careers.

Are you ready to take your career in life sciences to the next level? SLAS is here to help you build the skills, connections and experiences you need to thrive in this exciting field. Whether you're exploring career paths or staying in academia, we've got resources and opportunities designed just for you.

Networking

Mentor Match

Looking for guidance from seasoned professionals? The [SLAS Mentor Match program](#) connects you with mentors who can help shape your career—whether they're across the street or the globe. Get personalized advice, fresh perspectives and insider tips to navigate your path in life sciences.

[Learn More](#)

Join a Topical Interest Group

Dive into specialized communities that align with your passions! With **18 TIGs** to choose from—like **Women of SLAS**, **Academic Drug Discovery** and **Data Science & AI**—you'll collaborate with peers, share research and gain insights that matter to you. Connect at conferences or online, anytime.

[Learn more](#)

Volunteer and Get Involved

Want to work alongside life sciences thought leaders without leaving your current role? Volunteer with SLAS to give back to the community, gain new skills and boost your résumé with meaningful experiences.

[Learn More](#)

Career Advancement

Attend or Present at an Event

SLAS hosts various events, including free virtual events and regional Meet-Ups, and annual conferences that provide scientific education and networking opportunities – students get a deep discount! To learn more about a Regional Meet-Up in your area or how to register for **SLAS Europe 2025** in Hamburg, Germany, visit our [events calendar](#).

Get Hired

Did you know we offer a job feed that's **FREE** to use? The **SLAS Career Center** contains the latest job opportunities exclusive to the life sciences. You can post your résumé, sign up for free alerts based on keywords that are delivered right to your inbox so you can be the first to check out an opportunity!

Free Student Membership

Yes, it's free! As a student member, you'll join a global network of scholars, scientists and innovators shaping the future of life sciences; access cutting-edge research, scientific publishing and career-building resources—for free.
